TECHNICAL INFORMATION

Switch Specifications: Switch gear in our Switch products is rated to 250W. The following Ranges use quality Clipsal electrical components: Series 55, 56, 30, 10, 60 and the Bakelite Series.

2 Way & Intermediate Switches: Intermediate switches enable you to have more than two switches for one light. This is popular for controlling lights in a hall or stairwell.

Product Care / Care of Finish: These products require no more than a regular dust to stay bright and untarnished. Given they are electrical products, do not use liquid cleaning solutions.

Dimmer Specifications:			
	Universal		Universal
Incandescent lighting	✓	Low voltage halogen with iron core/wirebound transformer	✓
240V Linear halogen	✓	Clipsal Power rating	450W
Low voltage halogen with electronic transformer	✓	HMC Power rating	450W

ORDERING & OTHER USEFUL INFORMATION

We keep a selection of the most popular switches in stock with non-stock items available within two weeks from receipt of order. The availability of each product is shown. If a specific product is not listed within this catalogue, please contact us and we will endeavour to source what you require. Orders can be placed in the following ways; over the phone, by fax or email, by visiting our showroom in Rotorua, or through your preferred merchant or electrical supplier.

Opening Hours:
Monday–Friday, 7.30am–5pm | Public Holidays Closed.

Accepted Payment:
Cheque, Eftpos, Credit Cards (excl AMEX & Diners), Internet banking.

Credit Accounts:
We offer trade credit accounts to Trade Customers and Merchants. Our terms of trade are strictly payment by the 20th of the month following purchase. Credit account application forms can be supplied upon request.

Cash Accounts:
If you prefer to pay as you go but want to benefit from lower prices, open a cash account. It also adds you to our mailing list, to keep you up to date with the latest news from B&V.

Displays / Showroom:
Our Rotorua Sales Centre has a wide range of display products, including switches, balustrades, finials and fretwork.

Special Orders:
For special orders we require a 40% deposit at the time of order and payment at the time of collection or prior to delivery.

Product Availability:
This catalogue shows the availability of each product. We have a wide range of products in stock, however, we recommend customers always confirm availability and/or lead times at the time of order.

Freight & Couriers:
Our prices do not include freight (or delivery), however, we will be happy to provide you with a competitive quote.

Cancellations & Returns:
We understand that sometimes you may need to cancel an order or return products. Our Cancellation, Credit, Claims & Returns Procedure is detailed on page 7.

Finishes & Images:
Please note that due to printing processes the colour of the image may slightly differ from the actual product appearance.

Disclaimer:
We aim to ensure that all product information and specifications within this guide are correct and accurate at the time of print production. However, there are times when specifications change. We recommend you confirm all product details at the time of order.

2	TC5502	5	TC5512
3	TC5503	6	TC5513

Availability: 3–4 Days

CANCELLATION, CREDIT, CLAIMS & RETURNS PROCEDURE

Bungalow & Villa endeavours to ensure all consignments despatched reach you in full, on time and in the best possible condition, however, on some occasions this does not happen. We are therefore trying to improve the way claims for freight damage and credits are handled. To do this successfully we need your help.

Please ensure your inwards goods team thoroughly inspect the delivery of product for any damage before signing the consignment note. If damage is discovered, sign the freight contractor's consignment note as 'DAMAGED' (please do not make any further notation of any kind on the consignment note, as this may void any claim).

Following that, please notify us as soon as possible. Either call our office toll free on 0800 428 642 or by email: sales@bungalowandvilla.co.nz or.

Please note claims of this nature cannot be accepted for consideration more than seven days following delivery.

When you have made contact with us we will organise to have the damaged items sighted by one of our team.

Please have the items ready as soon as possible, so once sighted we can arrange for the consignment to be collected. If you would like replacement product, we will action this as soon as possible.

We understand that not all damage is visible immediately and can only be seen when

goods are unpacked. If this is the case please notify us immediately. Please bear in mind that unless we are notified of concealed damage within 48 hours of delivery, a credit will not be possible.

In the event your order has been short supplied, a product has been sent incorrectly or there is a pricing error, we ask that you notify our Customer Service Team or your Representative as soon as practicable.

For any claim, if you have the ability to photograph the issue and forward the image to us, it would be greatly appreciated. However, we still require product returns to be sighted by one of our team before they are returned for credit.

To ensure the credit is processed in a timely manner, please quote the Bungalow & Villa invoice number on all correspondence.

It is important to note that goods disposed of will not be credited if not first sighted and authorised by a representative of Bungalow & Villa.

The Team at Bungalow & Villa is working closely with our freight contractors to ensure our products are delivered to you in the best possible condition — so we really appreciate your continued co-operation.

If you have any questions regarding this Procedure, please contact our Office on ph: 0800 428 642.

* Kauri / Rimu — To enable Bungalow and Villa to maintain regular stocks and in order to supply a quality natural finish timber moulding at the best possible price, we have chosen to use Fijian Kauri as a suitable alternative to New Zealand Kauri, and Pacific Rimu or Indonesian Podocarp as a suitable alternative to New Zealand Rimu.

** Paint Quality Products — Paint Quality Products are usually FJ Pine, however, may occasionally be other timbers. Paint Quality Products should be prepared in accordance with best trade practice prior to painting.

Phone: 09 846 1502 or 0800 428 642
